SB 5100-S by Senate Committee on Water, Energy & Environment (originally sponsored by Senators Poulsen, Fraser, Kline and Kohl-Welles; by request of Governor Locke)

Providing greenhouse gas reduction objectives and strategies.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares that it shall be the goal of the state of Washington to reduce our emissions of greenhouse gases throughout the state and across all major sectors.

Provides that: (1) By December 1, 2010, the state of Washington will reduce its total greenhouse gas emissions

to a level that does not exceed the total annual production of greenhouse gases produced within the state in 1990.

(2) By December 1, 2020, the state of Washington will reduce its total greenhouse gas emissions to a level that is at least ten percent below the total annual production of greenhouse gases produced within the state in 1990.

(3) Beyond 2020, the state of Washington will continue to reduce its total greenhouse gas emissions to levels consistent with long-term stabilization of greenhouse gas levels in the atmosphere and consistent with the recommendations of the intergovernmental panel on climate change.

Requires the Washington State University center for climate and rural development in cooperation with the department, the department of community, trade, and economic development, and other government entities, including local air pollution control agencies, to report to the legislature and governor every three years on greenhouse gas emissions produced instate and total greenhouse gas emissions produced out of state as a result of in-state energy demands. The report shall describe progress toward achieving the goals set forth in this act.

Directs the center, in cooperation with the department, the department of community, trade, and economic development, the energy facility site evaluation council, and other interested parties, to create a greenhouse gas emissions registry by December 31, 2006. To the maximum extent possible, the center shall coordinate with other states that have or are developing such registries.

Authorizes the center to determine that Washington state participation in an existing or proposed multistate climate registry is sufficient to meet the requirements of this act.

Directs the center together with the department of community, trade, and economic development to investigate greenhouse gas reduction strategies for the state and report its findings to the governor and legislature.

Referred to Ways & Means.

SB 5334-S by Senate Committee on Government Operations & Elections (originally sponsored by Senators Kastama, Finkbeiner, Esser and Keiser)

Authorizing a temporary annexation surtax for specified cities.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that, in many of the most populous areas of the state, it is in the best interests of the residents to provide municipal services by encouraging annexation of those areas into existing adjacent cities. However, even where the residents desire to become annexed, cities are unable to undertake the proposed annexations because of the unfair tax burdens that would be placed on their existing residents to pay for services to the newly annexed areas.

Finds that a voter-approved temporary annexation surtax on utility services would provide the revenues needed to provide vital municipal services paid for by the residents of the annexation area. Because utility taxes are paid by property owners and renters alike, the legislature believes that a temporary surtax will spread the burden upon all residents in annexation areas.

Declares an intent that this act will provide an additional tool to enable cities to annex unincorporated areas that lie within designated urban growth areas when the residents of those annexation areas vote to approve the annexation.

Authorizing branch campuses to offer lower-division courses.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the University of Washington Bothell, University of Washington Tacoma, Washington State University Tri-Cities, and Washington State University Vancouver have each conducted a thorough review of the campus mission and model of educational services and made recommendations to the legislature for the future evolution of the campus.

Recognizes that there are regional differences in relation to capacity gaps and programmatic needs of students that require a differential approach to individual branch campus expansion and that similar treatment of each campus may no longer be the most efficient way in which to address the higher education needs of the state.

Expresses a belief that the original mission of branch campuses to contribute to regional economic development

requires differential treatment of each campus based on the regional economic and higher education needs.

Declares an intent to authorize each campus to expand its educational offerings to include lower-division courses but the expansion shall be unique to each campus, reflect the needs of the region the campus serves, and continue to support collaboration with the entire higher education system.

Substitute: Concerning high-performance building standards.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent that public agencies and public school districts shall document costs and savings to monitor this program and ensure that economic, community, and environmental goals are achieved each year, and that an independent performance review be conducted to evaluate this program and determine the extent to which the results intended by this act are being met.

Requires that all major facility projects of public agencies receiving any funding in a state capital budget shall be designed, constructed, and certified to at least the LEED silver standard.

Requires public agencies and public school districts to monitor and document ongoing operating savings resulting from major facility projects designed, constructed, and certified as required under this act.

Provides that public agencies shall report annually to the department on its major facility projects and operating savings.

Requiring consideration of water quality during growth management planning.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that, while substantial progress has been made in protecting Washington's environment, more is now known about the significant effects of development along the state's shorelines.

Declares an intent to provide the tools necessary to address the evolving understanding of measures needed to maintain and, when required, enhance water quality for Washington's marine shorelines while accommodating appropriate development consistent with city and county comprehensive plans.

Recognizes the state's growth management act includes a goal and general requirements to protect water quality as well as the state's surface and ground waters, including Puget Sound. The legislature also recognizes these provisions are codified at RCW 36.70A.020(10), 36.70A.030(14)(g), and 36.70A.070 (1) and (5)(c)(iv).

Finds the approach taken in the growth management act will protect our marine waters and assist counties, cities, and the public.

Declares an intent that the provisions of this act be implemented by counties and cities according to the schedule specified in RCW 36.70A.130.

Provides that, when preparing comprehensive plans and development regulations according to chapter 36.70A RCW and when reviewing comprehensive plans and development regulations according to RCW 36.70A.130, cities and counties shall consider land use measures to maintain and, when required, enhance water quality and habitat as recommended by public agency plans or programs.

Declares that counties and cities may not designate in a comprehensive plan adopted under chapter 36.70A RCW urban growth areas on marine shorelines not already occupied by urban growth unless the designation is necessary for water-dependent or water-related uses.

Requires counties and cities to implement the requirements of this section according to the schedule specified in RCW 36.70A.130.

SB 5699-S by Senate Committee on Natural Resources, Ocean & Recreation (originally sponsored by Senators Oke, Jacobsen, Spanel, Doumit, Kline, Rockefeller and Rasmussen)

Preventing and controlling aquatic invasive species and algae.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that aquatic invasive species and freshwater aquatic algae are causing economic, environmental, and public health problems that affect the citizens and aquatic resources of our state. Many highly destructive species, such as the zebra mussel, are currently not found in Washington's waters and efforts should be made to prevent the introduction or spread of these aquatic invasive species into our state waters. Preventing new introductions is significantly less expensive and causes far less ecological damage than trying to control new infestations.

Finds that freshwater algae, particularly blue-green algae, are also seriously degrading the water quality and recreational value of a number of our lakes. Blue-green algae can produce toxins that inhibit recreational uses and pose a threat to humans and pets.

Declares an intent to clarify the roles of the different state agencies involved in these issues in order to address the threat of aquatic invasive species and the problem caused by aquatic freshwater algae, and to provide a dedicated fund source to prevent and control further impacts.

Creates the aquatic invasive species prevention account in the state treasury.

Declares that funds in the aquatic invasive species prevention account may be appropriated to the department to develop an aquatic invasive species prevention program for recreational watercraft. Funds must be expended as follows: (1) To inspect watercraft, watercraft trailers, and outboard motors at selected boat launching sites;

(2) To educate general law enforcement officers on how to enforce state laws relating to preventing the spread of aquatic invasive species;

(3) To evaluate and survey the risk posed by marine recreational watercraft in spreading aquatic invasive species into Washington state waters;

(4) To evaluate the risk posed by float planes in spreading aquatic invasive species into Washington state waters; and

(5) To implement an aquatic invasive species early detection and rapid response plan.

Requires the department to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this section along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Creates the freshwater aquatic algae control account in the state treasury.

Provides that funds in the freshwater aquatic algae control account may be appropriated to the department to develop a freshwater aquatic algae control program. Funds

must be expended as follows: (1) As grants to cities, counties, tribes, special purpose districts, and state agencies to manage excessive freshwater algae; and

(2) To provide technical assistance to applicants and the public about aquatic algae control.

Requires the department to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this act along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Creates the aquatic invasive species enforcement account in the state treasury.

Provides that funds in the aquatic invasive species enforcement account may be appropriated to the Washington state patrol to develop an aquatic invasive species enforcement program for recreational watercraft. Funds must be expended as follows: (1) To inspect recreational watercraft that are required to stop at port of entry weigh stations managed by the Washington state patrol. The watercraft must be inspected for the presence of zebra mussels and other aquatic invasive species; and

(2) To establish random check stations, in conjunction with the department of fish and wildlife, to inspect watercraft in areas of high boating activity.

Requires the Washington state patrol to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this act along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Provides that a person is guilty of a secondary commercial fish receiver's failure to account for commercial harvest if the person sells fish or shellfish at retail, stores or holds fish or shellfish for another, ships fish or shellfish, or brokers fish or shellfish, the fish or shellfish were required to be entered on a Washington state fish receiving ticket or a Washington aquatic farm production report, the person is not a wholesale fish dealer, fisher selling under a direct retail sale endorsement, or registered aquatic farmer, and the person fails to maintain records of each receipt of fish or shellfish at the location where the fish or shellfish are being sold, at the location where the fish or shellfish are being stored or held, or the principal place of business of the shipper or broker, or violates the recordkeeping requirements of this act.
